

All Purpose Digital Thermometers

Digital • Hold function • °C/°F conversion • Automatic power off

MASTER series - Digital, K-type, Compact size

- Compact size that fulfill the need for most of every day applications.
- Use with thermocouple that serves as a sensor (thermocouple included).
- The measuring range is as wide as the sensor can provide with sufficient accuracy for applications.

LAB-IE-C307 *

- 200°C to 1370°C
- Resolution: 1 °C
- 164 x 54 x 34mm
- Mini Size
- Dual Input
- Dual Display
- Auto Power OFF
- Battery: 9V

Thermometer - Digital with probe and cable

LAB-002

-40°C to +200°C

Resolution: 0.1°C

95 x 60 x 18mm, probe 125mm, straight cable 600mm

Waterproof, memorize function (min & max)

Battery: 2 x 1.5V AAA

Thermometer - Digital with probe

LAB-001

-40°C to +200°C

Resolution: 0.1°C

200mm, probe 125mm

Waterproof, memorize function (min & max)

Battery: 1 x 1.5V button cell

Thermometer - Digital with probe

LAB-T30-1048

- -50°C to +300°C
- Resolution: 0.1 °C
- 245 x 25 x 17mm, probe 140mm
- Splash proof IP55, ON/OFF switch
- Automatic switch off, protective cap
- Battery: 1x1.5V button cell

* 3 months warranty against manufacturing defects only.
 Please check condition of product upon purchase.

Pastry Pro

Water Proof

Thermometer - Digital with probe, Fold out

LAB-T30-1047-02 *

- -40°C to 250°C
- Resolution: 0.5°C up to 150°C, 1°C at higher temperature
- 116 (192) x 38 x 20mm, probe 60mm
- Fold-out thermometer in pocket-size
- For easy temperature measurements in liquid, powdered and plastic materials
- Water proof IP65, auto switch off, according to EN13485
- Battery: 1 x 3V button cell

Thermometer - Digital with cable, Professional - Robust, universal measuring instrument

LAB-T31-1020 *

- -40°C to +200°C
- Resolution: 0.5 °C
- 130 x 65 x 25mm, probe 120mm, straight cable 1200mm
- Illuminated display, splash proof
- Battery: 2x1.5V AA

Digital Thermometers For Freezer/Fridge/Room Temperature

Thermometer - Digital, Freezer/Fridge/Room

LAB-T30-1042 *

- -30°C to +50°C
- 72 x 91 x 13mm
- Indication of temperature with corresponding freezer-fridge symbol
- With stand & frame for mounting on surfaces or behind glass
- According to EN13485
- Battery: 1 x 1.5V button cell

Thermometer - Digital, Freezer/Fridge/Room with alarm

LAB-T30-1034 *

- -50°C to +70°C
- Resolution: 0.1°C
- 57 x 86 x 30mm, cable 300mm
- Display of current, highest & lowest temperature, hold function
- Alarm at adjustable temperature values (upper-lower limit)
- With table stand and magnet
- Battery: 1 x 3V Lithium button cell

Thermometer - Digital, Freezer/Fridge/Room

LAB-T30-2028-01 *

- -20°C to +50°C
- 43 x 68 x 14 mm
- For indoor temperature and fridge
- Flexible support for wall mounting and table standing with magnet
- Battery: 1 x 3V button cell

Infrared Thermometers

LAB-003

-20°C to +500°C

Resolution: 0.5°C

157.5 x 115 x 36mm

Low battery indication, laser targeting, LCD screen with back light.

Ideal for monitoring sugar, chocolate and useful when the surface temperature is high and difficult to reach.

Battery: 1 x 9V

* 3 months warranty against manufacturing defects only.
Please check condition of product upon purchase.

Oven Thermometer

- 50°C to 300°C
- Resolution: 10°C
- To place or hang inside the oven

MATR250350
Stainless steel with dial
Ø60 mm

Sugarwork Thermometer

Mercury-free!

- 80°C to 200°C
- Resolution: 1°C
- Glass body with red indicator ease visibility

**Thermometer - Sugarwork,
with plastic protector**

MATR250330
300 mm

**Thermometer
- Sugarwork, with stainless steel protector**

MATR250331
300 mm

Accessory:

Thermometer Holder
MAO-MRTE
137 mm

* 3 months warranty against manufacturing defects only.
Please check condition of product upon purchase.

• Prices not inclusive of GST

Deep Fry Thermometer

LAB-T14-1024

- 0°C to 300°C
- 150 x 50mm
- Stainless steel

Thermohygrometer

- Measure humidity

LAB-T45-2003 *

- 0°C to 50°C, 30 to 90% RH
- D 100mm
- Plastic casing, for hanging

TOO DRY
LESS THAN
15%
HUMIDITY

You may notice you're getting zapped by door-knobs and light switches.

A humidifier will help increase humidity.

TOO HUMID
GREATER THAN
50%
HUMIDITY

You may notice that your hair is frizzier than usual.

Air conditioning will help lower humidity.

Refractometer

- Measure sugar content

LAB-ATG-IT *
Master-T, handheld

LAB-ATG-4T *
Master-4T, handheld

	Master-T	Master-2T	Master-4T
Scale Range	Brix 0.0 to 33.0%	Brix 28.0 to 62.0%	Brix 45.0 to 82.0%
	Automatic Temperature Compensation		
Minimum Scale	Brix 0.2 %		
Accuracy	Brix ±0.2% (10-30°C)	Brix ±0.2% (10-40°C)	
Repeatability	Brix ±0.1 %		
Size & Weight	3.3x3.3x20.4cm, 160gm		3.3x3.3x16.8cm, 120gm
